The following fees apply where users have purchased OSi paper mapping and other material and wish to scan it to create a raster image. The appropriate licence fee will also apply to the raster material from the date of scanning.

| Larger areas | Available on request |

Notes:

- OSi may, at its discretion, allow a discount on these charges where a significant amount of the user's data is overlaid on the OSi paper mapping;
- Explicit permission from OSi is required before any OSi paper mapping or other material may be scanned;
- Permission will only be granted for the scanning of large-scale material where a user has large archives of OSi large-scale material which also contain the user's own information;
- No scanning charges are due if the customer holds an OSi licence for the relevant area of equivalent vector or raster digital data.
