

# Environmental Reports

## Introduction

### What is an Environmental report?

An Environmental Report contains information on an area of land, based on a location specified when ordering a report.

The report searches the information stored in the Environmental Database for a specific geo point generated from the location information provided by the customer when ordering the report

*Residential Report Front Page*

### What is contained in an Environmental Report?

- Introduction to the report including data explanations and descriptions
- Summary Results of searches on the different datasets
- Detailed descriptions of the searches
- Terms and Conditions

Table of Contents	
INTRODUCTION	3
SECTION 1: SEARCH RESULTS	8
