

## National Centre for Technology in Education

### Introduction

The National Centre for Technology in Education is an Irish Government agency established to provide advice, support and information on the use of information and communications technology (ICT) in education. As the Government's agency on the use of information and communications technology (ICT) in education it plays a central role in helping to maximize the benefits for learners and teachers in using ICT.

### Project Summary

The NCTE uses a wide variety of OSi interactive digital mapping on their education website, Scoilnet.ie. A wide range of OSi maps and Ortho-photography is also made available to both primary and secondary level schoolchildren and their teachers on-line. Maps available for online access include:

- OSi 1:5000 Raster
- OSi 1:50 000 Raster
- OSi 1:50 000 DTM
- OSi 1:450 000 Raster
- OSi 1:600 000 Raster
- OSi 1:10 560 Raster (Vintage)
- OSi Orthophotography 2000

### OSi Data Bases employed:

- Large Scale Mapping
- Small and Medium Scale Mapping
- High and low level imagery and Orthophotography
- Height models and LiDAR models
- National Boundaries and Small Areas database
