

Ordnance Survey Ireland

Price list for copyright permits.

Effective from 1 January 2008

Introduction

This price list applies to the reproduction of OSi material in paper publications. It should be read in conjunction with the relevant OSi terms and conditions (CP1). Relevant terms used in this price list are defined in the 'General Principles and Definitions' price list (GP1).

Two types of pricing apply for Copyright Permits. In both cases, fees are calculated on a case by case basis. In order to assess the royalty fee OSi will need the following information:

- The area of OSi material that is being reproduced;
- The paper size of the map being reproduced;
- The scale of the reproduction;
- The number of copies being reproduced; and
- The purpose of the reproduction.

A standard leaflet and application form are available on the OSi website (Leaflet CP1).

All prices are quoted exclusive of VAT at the standard rate. In all cases, a minimum invoice amount of €35 applies.

Publication Types

1. Publications containing extracts of OSi material

This pricing model is used where the customer wishes to reproduce a map extract in any publication that would not be considered a map product, for instance magazines, flyers, once off reproductions.

The royalty per product will be calculated from the page area of the mapping based on OSi material, with the fee being calculated from Tables 1, 2 and 3 of this price list.

2. Publications which may primarily be considered map products

This pricing model is used where customers wish to reproduce OSi material in a publication that may primarily be considered a map product, for instance a substitute for or cover version of an OSi branded product.

Charges will be based on 10% of the current retail list price of a similar OSi product.

Notes:

- *The following restrictions apply for Type 1 publications using OSi 1:25,000, 1:50,000 and 1:250,000 datasets in facsimile form:*
 - *The mapping must not cover more than 50% of the total paper area of the publication; and*
 - *No individual map extract of more than A3 size may be made from any single paper sheet of OSi 1:25,000, 1:50,000, 1:210,000 or 1:250,000 mapping.*
- *Permission under Type 2 arrangements may not be granted for publications in the same or a similar format or specification to that provided as a branded product by OSi*
- *Where a publication covers only part of an OSi product an appropriate discount may apply to Type 2 arrangements.*
- *Publications which make significant adaptations to the style and format of the OSi material may be entitled to up to 50% unit cost discount. Such discounts will be considered on a case by case basis.*
- *Free distribution as marketing material is not a criterion for exemption from royalties.*
- *Reprints of the publication may, with OSi's permission, be made subject to payment of a further fee calculated from the price list applying at the time of the request to make the reprint.*
- *Prices which apply to the display of publications on the Internet are available on application.*
- *Decisions as regards pricing rest with OSi and the onus is on the customer to confirm pricing before proceeding with any project.*

Table 1: Fees for Type 1 Copyright Permits from OSi small and medium scale material

Fax. 353 1 8247540

E-Mail copyright@osi.ie

Table 3: Royalty charges for copying OSi Place Maps**Minimum Charge** €35.00**A Royalty Charges for copying paper extracts from OSi database**

Paper Size	A4	A3	A2	A1	A0
Royalty	€3.00	€6.00	€10.00	€12.50	€15.00

The above prices are subject to 21% VAT.

Notes:**To calculate a royalty assessment**

- Read Across the top of the table to find the appropriate paper size.
- Multiply this figure by the number of copies required.
- The above charges relate to database material collected at survey scales of 1:1,000, 1:2,500 and 1:5,000.

Example 6 A4 extracts = €18.00 (€3.00 x 6) subject to €35.00 minimum Administration/Invoice charge.

For paper areas falling between those shown use a percentage of the next largest size.

Ordnance Survey Ireland/Government of Ireland Copyright subsists in all Ordnance Survey Ireland material. Table 4: Royalty charges for reproducing Environmental report data**Large and Medium scale data**

Large and Medium scale data can be used as overview mapping in Environmental reports. Large scale map plots in the scale of 1:1000, 1:2500 & 1:5000 can be used at a scale smaller than 1:5000, and should be plotted at an odd scale factor.

A single overview map can be made up of either OSi large scale data, Aerial imagery or Historical mapping.

A charge of **€6.42** for each individual **1st unique*** A4 image that includes OSi large scale, Aerial imagery or Historical mapping within each Environmental report is applicable, subsequent additional images are charged at **€2.68**.

***1st Unique images** – A large scale plot, aerial image or a scale of Historical mapping, plotted within an individual Environmental Report are all classed as 1st unique images. Changing the scale of a plot contained within the report makes it unique, although overlaying environmental information such as Flood Polygons or the Geo-point of a well does not constitute a unique image.

Large & Medium Scale Data

Size of Reproduction approx***	Price for 1 st Unique Image	Price per Subsequent Image
A4 size	€6.42	€2.68
A5 size	€3.21	€1.34

*** Approximate size of reproduction is within 10% +/- of original image.

Historic Environmental data

The cost relating to the use of Historical mapping data within a report is defined by the search area used within the report on this dataset.

Use of a theme within the Historic Map Environmental dataset rather than the complete dataset can be priced upon request.

Historic Environmental Data

€0.10	Per hectare up to 100 hectares
€0.08	Per hectare up to 200 hectares
€0.06	Per hectare up to 300 hectares
